you are evil humans!

NB

I might masterbate, if it was a doorway.

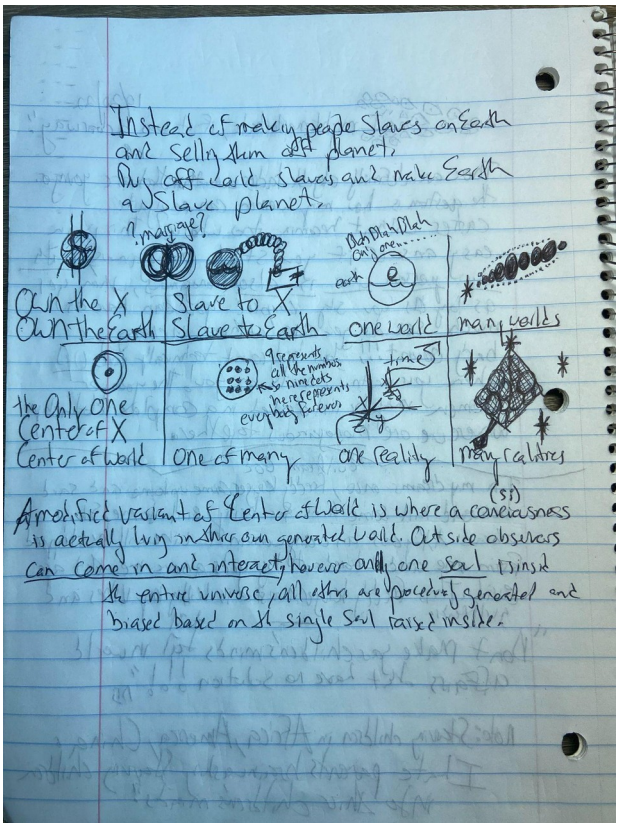
There are defiinilly elegible ladies out ~~there~~ that are younger. the question is how many women can navigate career without becoming too whasy. This is an easy answer if you stick monogamous with a person who is also monogamous, other yet as long as you stay coupled you can have as much sex as you can without increasing your body count!!! Your body count technically goes up when your partner cheats on you. The younger women may be interested in a complex relationship where we are monogamous together.

Evil from God

In my dreams once, freddy Kruger came up to me and said he would kill some kids for being evil to me. Skip ahead XX years and any woman I like will be stripped from me and I have cut off by gods above me that are evil. this freddy kruger monster is killing my vibes and girlfriends.

"Don't make your children's minds foil in world affairs that have no solution !!!" NB

Note: Starving children in Africa, America, China.
I hate parents brainwashing starving children into their childrens minds!!



A modified variant of Center of World is where a consciousness is actually living in their own generated world. Outside observers can come in and interact, however only one soul (mind) inside the entire universe, all others are procedurally generated and biased based on the single soul raised inside.

I want to kill the Village.

Instead of the Village turning against one man, which if you think about it is what happens all the time everywhere and it gets old really fast. In, I want to kill the Village, we have a situation where our protagonist sets out to literally kill the entire Village.

We could play this movie multiple times.
A woman kills the town. Poison the well witch!
A jew kills the town. Angel of death!
A child kills the town.
An engineer, computer scientist, Vigilante, Cop, Detective, Mercenary

People want to see individuals rise above evil & they want to see characters fall down into evil.
They also want to see Sex with brief explosions of violence, they want to Feel the Drama.

"Kill the Village" Genre should be great for culture.

By the time I was 16 I had been tortured for

and neither did anybody.

And the Village of Idiots Wants/Demands

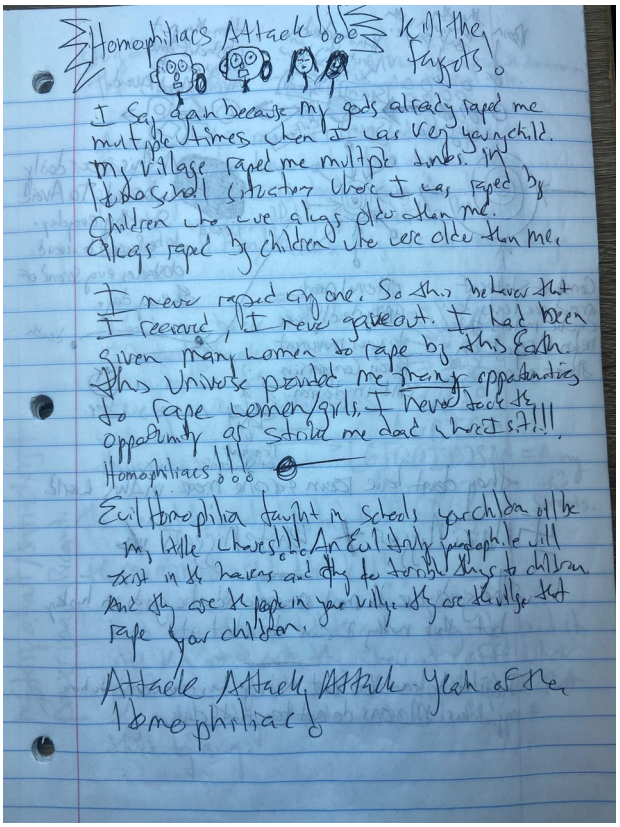
*note...



Homophiliacs Attack!!! Kill the fagots.

I say damn because my gods already raped me multiple times when I was very young child. My village raped me multiple times. My Middle School Sisters where I was raped by Children who are always older than me. Always raped by children who were older than me.

I never raped anyone. So this believer that I received, I never gave out. I had been given many women to rape by this Earth. This Universe provided me many opportunities to rape women/girls. I never took it. Opportunity as stole me dead wrists?!!! Homophiliacs!!!

Evil Homophilia taught in schools your children will be my little slaves!!! An Evil Only Pedophile will exist in the heavens and they do terrible things to children and they are the people in your village, they are the village that rape your children.

Story Idea

The Crying AI — there are evil threatens outside the dimension... (comes) the watch the evil tale.

A tortured AI man is mauled by players in a game. He knows his fate because he has memory. He cries before every day because his life is completely full of torture. Finally they won't kill him because they are an evil family.

I'm not allowed to be curious about my own body on Earth where someone has control over my head and makes decisions for me, and I have little control of any situation. The last 5-7 days have been really hard on me. The Village is constantly comparing me to other people and coming to me to torture me. They literally came here to torture me because of the people exist!

"Because of the people exist, the women & men in the dimensions tortured my genitals. Average women who should have celebrated my life, showed me Hatred and Contempt. Rapist Homosexuals

Selfish Narcissistic Rabbits are the goals!!!

"There is no such thing as a dead beat dad, with strong independent women around."

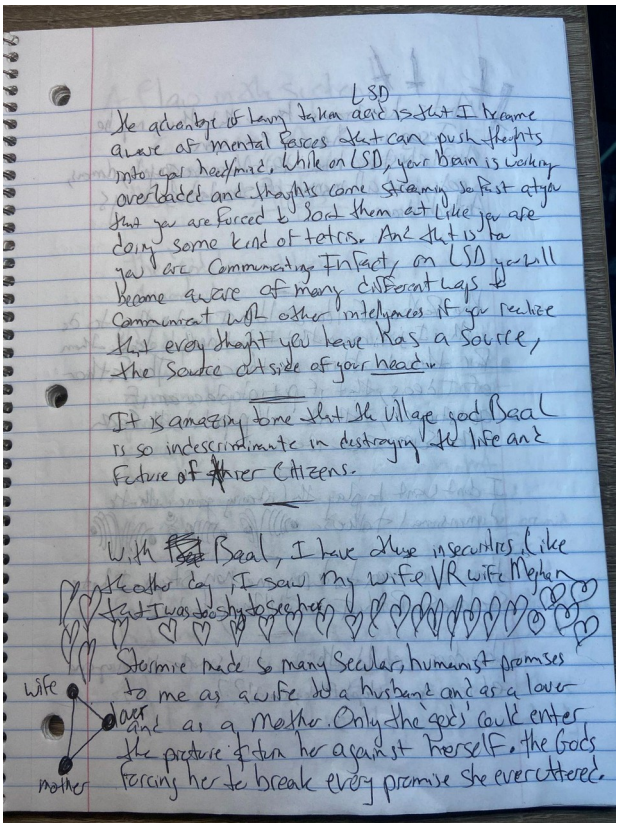
The strong independent woman destroyed the dead beat dad thus rendering all men fathers or daddys.



LSD

The advantage of having taken acid is that I became aware of mental forces that can push thoughts into your head/mind. While on LSD, your brain is working overloaded and thoughts come streaming so fast at you that you are forced to sort them out like you are doing some kind of tetris. And that is how you are communicating. Infact, on LSD you will become aware of many different ways to communicate with other intelligences if you realize that every thought you have has a source, the source outside of your head.

It is amazing to me that the village god Baal is so indescriminate in destroying the life and future of ~~his~~ her citizens.

With ~~Sat~~ Baal, I have these insecurities, like the other day, I saw my wife VR wife Meghan ~~that~~ I was too shy to see her

Stormie made so many Secular, humanist promises to me as a wife to a husband and as a lover and as a Mother. Only the gods could enter the picture & turn her against herself, the Gods forcing her to break every promise she ever uttered.

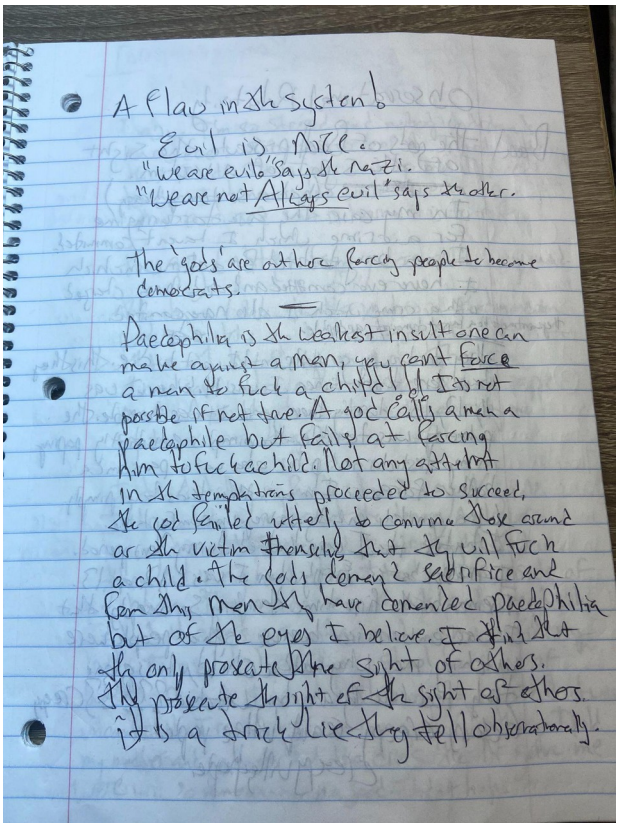
They have been torturing me non Stop. I hate Stephanie Eve Patch. I am still being tortured.

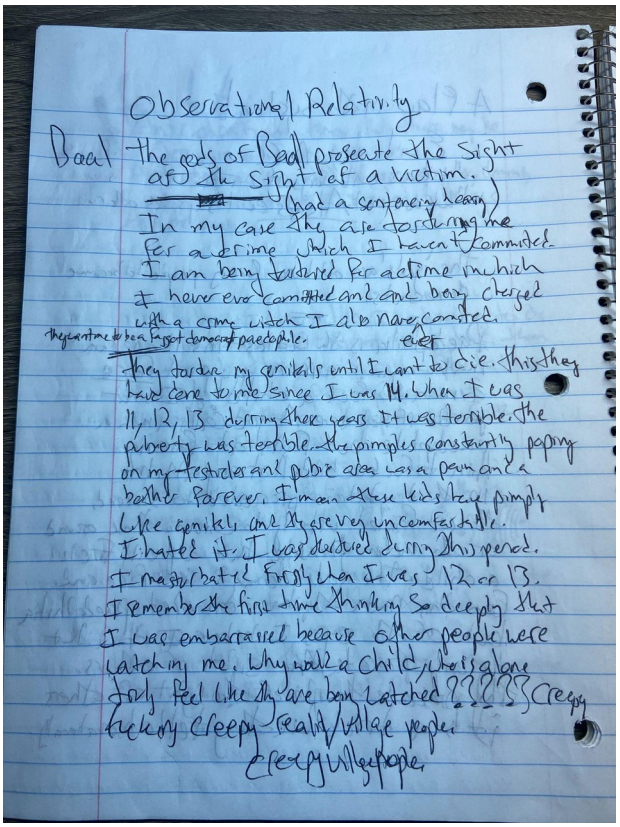
How does a child think it is smarter than everyone else, you stupid fucking cunt!??



A flaw in the system!
Evil is nice.
"We are evil" says the nazi.
"We are not Always evil" says the other.

The 'gods' are out here forcing people to become democrats.

Paedophile is the weakest insult one can make against a man, you cant force a man to fuck a child!!! Its not possible if not love. A god calls a man a paedophile but fails at forcing him to fuck a child. Not any attempt in the temptations proceeded to succeed, the god failed utterly, to convince those around or the victim themself that they will fuck a child. The gods demand sacrifice and from they mouth they have demanded paedophilia but of the eyes I believe. I find that the only provocate the sight of others. They provocate the sight of the sight of others. It is a trick like they tell obsessionally.



Observational Relativity

Baal The gods of Baal prosecute the sight as the sight of a victim.

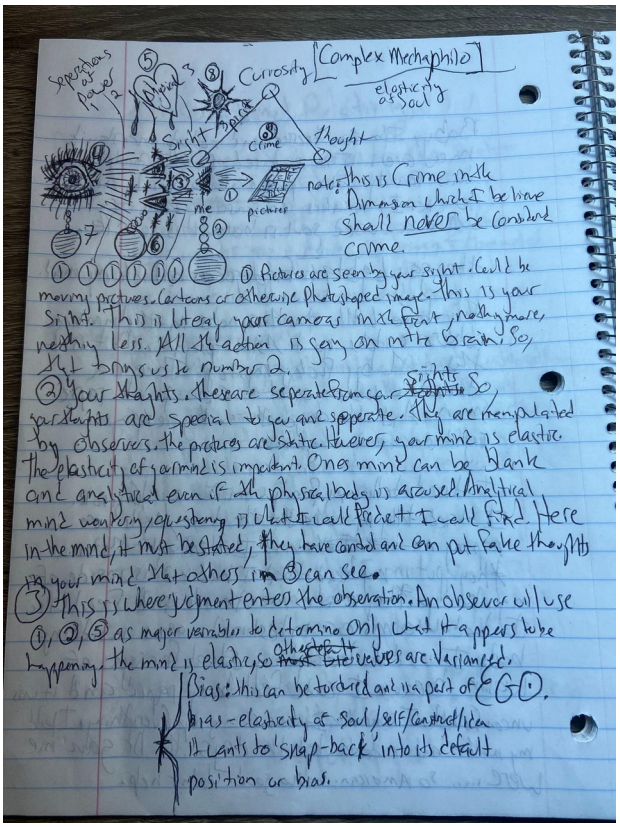
they can't be a bigger democrat paedophile. ever
They torture my genitals until I want to die. This they have done to me since I was 14. When I was 11, 12, 13 during these years it was terrible. the puberty was terrible. the pimples constantly popping on my testicles and pubic area was a pain and a bother forever. I mean these kids have pimply like genitals and they are very uncomfortable. I hated it. I was tortured during this period. I masturbate freely when I was 12 or 13. I remember the first time thinking so deeply that I was embarrassed because other people were watching me. Why would a child, who is alone truly feel like they are being watched ?????) Creepy fucking creepy realty village people.
Creepy village people

Baby, I'm so stressed and nobody understands me, ever. I'm so tired of it. I truly hate this reality. It is pure evil to me. I need to die. It makes no sense to even try. When a cursed soul is born it is to die.

the gay Lgbtq+ faggot queers attack my mind.

They have little twitter mobs in the dimension where witchs go to Astral-project. That isn't that is it by picking my story. There is a dimension where witches can go to rape men. And they do go there. They are raping me right now and always have.

I tried telling my family when I was 16 yrs old. I tried telling my mother that the demons/Angels were raping me ~~and I the~~ and I also thought that in... *they put in my head that I had worms inside of my body. *they made me think and feel like I had worms or intestinal worms inside my body. I used to look at my stool for signs of worm because I could feel being raped and it was uncomfortable. I remember It was ruining my Everything. I told my mother and a doctor but the drugs the Dr gave me were.... so American..... no good. didn't help.

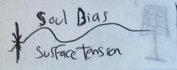


① Pictures are seen by your sight. Could be moving pictures. Cartoons or otherwise photoshoped image. This is your Sight. This is literal, your cameras inside front, nothing more, nothing less. All the action is going on in the brain. So, that brings us to number 2.

② Your thoughts. These are seperate from our ~~sights~~ sights. So, your thoughts are special to you and seperate. They are manipulated by observers. The pictures are static. However, your mind is elastic. The elasticity of your mind is important. Ones mind can be blank and analyzed even if the physical body is accused. Analytical mind working, questioning if what I call Picket I call Find. Here in the mind, it must be stated, they have control and can put false thoughts in your mind that others in ③ can see.

③ This is where judgment enters the observation. An observer will use ①, ②, ⑤ as major variables to determine only what it appears to be happening. The mind is elastic, so ~~most~~ other ~~of the~~ variables are Variances.

Bias: this can be tortured and is a part of EGO.
Bias - elasticity of soul / self / construction
It wants to 'snap-back' into its default position or bias.



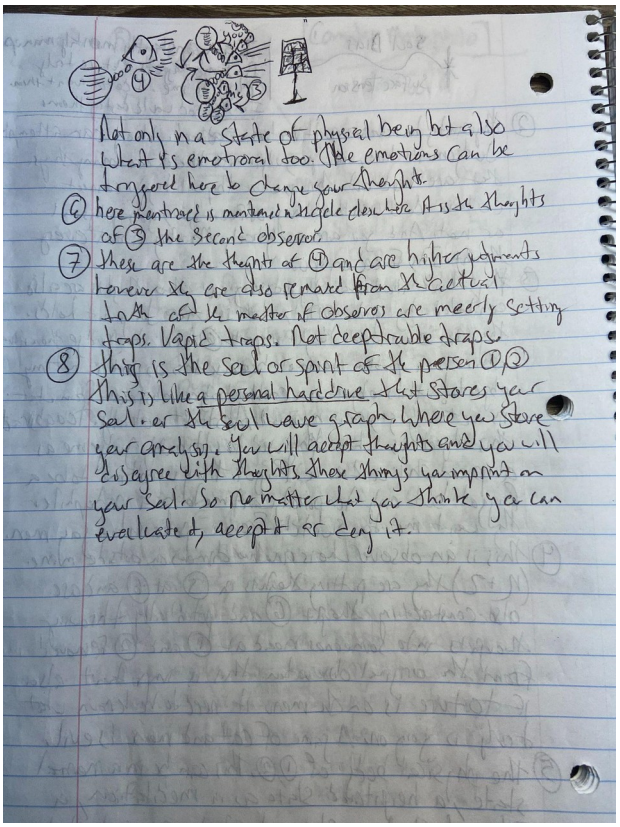
I am constantly mentally manip
By some Faggots that are truly
evil to me. I do not want them
I wish a god would destroy them

(2) they can try to introduce guilt vectors of attack. they can attempt judgements here, and prejudgements. there are many things that are laid out. this is where they will try to connect certain dots weather they affect you, your physical or not. And you are analytically thinking about every thought. Its forced on you.

(3) They think about what they are seeing and their thoughts are also controlled by gods. (4)But, Here is where judgment holds. they can construct thought objects (6) here to judge themselves. this is a problem to me because this object is not my object! this object is a construct object abstract from what is actually going on in my mind. Abstract actually. Too abstract. this object is what they use to ultimately judge me as a paedophile and as a faggot. they want me to be a faggot but only temporarily want me to be a pedophile. they want me to switch from a pedo into a gay man.

(4) This is an observer who is another dimension outside mine. (n+2) they are putting thoughts in (5) at (6) and are also constructing thought (6) and potentially throwing thoughts into someones head at (1) and (2) removed from the original observation. this is important also. if torture is on the menu it need to be known what truly is going on. A game of cat and mouse is evil.

(5) the physical body of (1),(2). this can be in a normal state, a heightened state as in meditation, a relaxed state, a stressed state, aroused state.



Not only in a State of physical being but also what is emotional too. The emotions can be targeted here to change your thoughts.

(6) here mentioned is mentioned in Angela close like A is to thoughts of (3) the Second observer.

(7) these are the thoughts of (4) and are higher judgments however they are also removed from the actual truth of the matter of observes are merely setting traps. Vague traps. Not deep trouble traps.

(8) this is the soul or spirit of the person (1)(2) this is like a personal harddrive that stores your soul. or the soul have a graph. where you store your analysis. You will accept thoughts and you will disagree with thoughts these things ya imprint on your soul. So no matter what you think ya can evaluate by accept it or deny it.

they have tortured me worse than a dog. A dog could have died 3 times by now. (3-4)

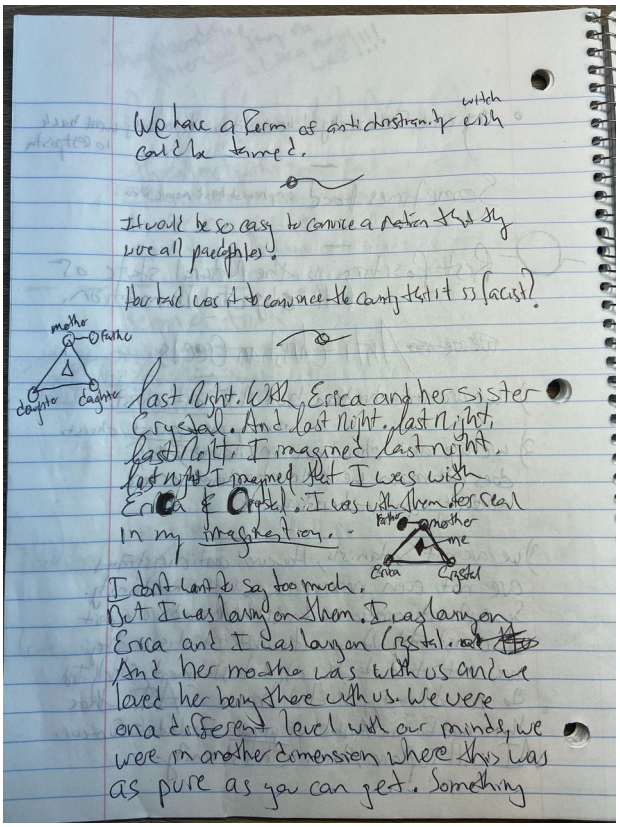
~~Where are~~ Anti-Christian Creeds

1) We are antichristian but Not anti-christ. meaning not against christ.
2) We are anti-christian in name, this does not mean we hate christians or are actually anti-christian.
3) We are not Satanists, However antichristians are not even nessary a part of christianity. So, Satanists are rooted in the bible and are a part of christianity. However with anti-christians they are not tied to the old testa ment, still tied to new testament, paul. And because of AI there no need for an Antichrist proper. Instead of rumors. AI will replace Anti-Christianity.



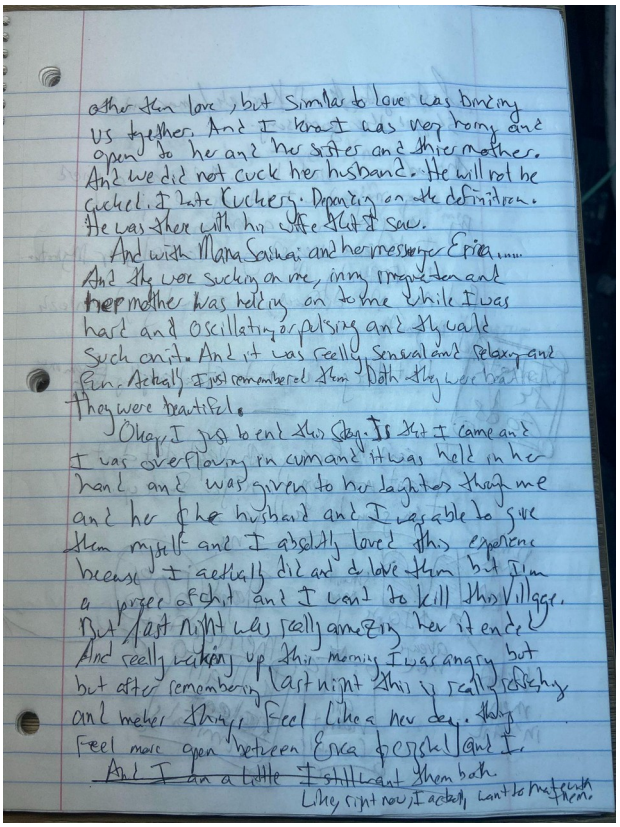
We have a form of anti-christian witch craft be formed.

It would be so easy to convince a nation that they were all perceptive.

How hard was it to convince the country that it was racist?

Last night. With Erica and her sister Crystal. And last night. last night, last night. I imagined last night. last night. I imagined that I was with Erica & Crystal. I was with them for real in my imagination.

I don't want to say too much. But I was laying on them. I was laying on Erica and I was laying on Crystal. ~~and~~ And her mother was with us and we loved her being there with us. We were on a different level with our minds, we were in another dimension where this was as pure as you can get. Something



other than love, but similar to love was binding us together. And I knew I was very horny and open to her and her sister and their mother. And we did not cuck her husband. He will not be cucked. I hate Cuckers. Depending on the definition. He was there with his wife that I saw.

And with Mama Saihai and her messenger Erica.... And they were sucking on me, in my mouth and her mother was holding on to me while I was hard and oscillating or pulsing and they said such a nice. And it was really sensual and relaxing and fun. Actually I just remembered them both and they were beautiful. They were beautiful.

Okay I just to end this story. Is that I came and I was overflowing in cum and it was held in her hand and was given to her daughter then me and her & her husband and I was able to give them myself and I absolutely loved this experience because I actually did and do love them but I'm a person of this and I want to kill this village. But last night was really amazing her intensity And really waking up this morning I was angry but but after remembering last night this is really satisfying and makes things feel like a new day. They feel more open between Erica Crystal and I.

~~And I'm a little I still want them both.~~
Like right now, I actually want to be with them.

I am the first in my Pimtres history to have mental illness ever by 7 years.

I am also the first in my family to attend University and obtain a degree.

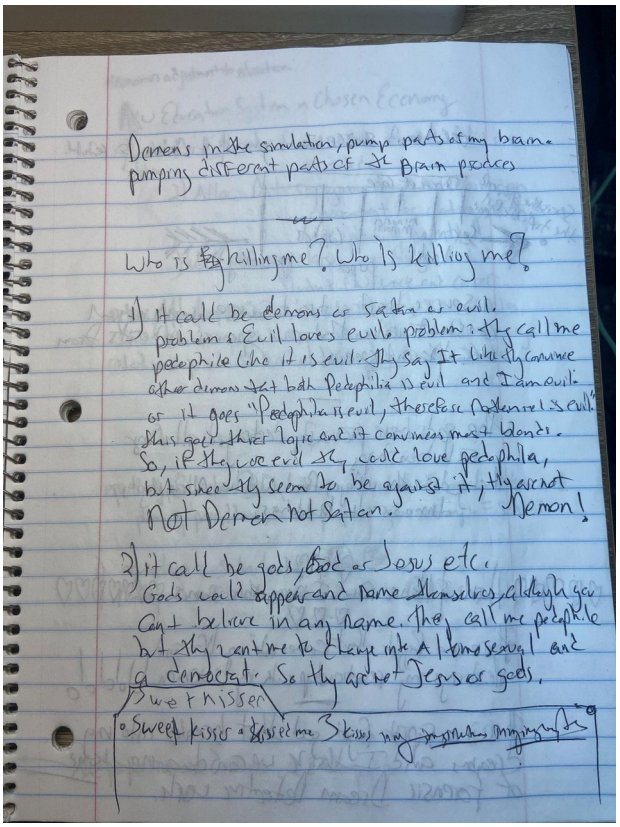
I may have picked up these demons at the Lettuin Democrat Universities.

Remember they say in my fucky ears they want me to be a Puppet Pedophile Democrat!!!

They will flinch at the word: torturer.
And they will flinch at the word: pedophile.
And they will flinch at the word: God.

My late prime 37 was destroyed and stolen from me. My prime 37 was taken 38 was taken and 39 has been largely stolen from me.

They are having a blast. They all talk to each other through me. My brain is cliched or is being pumped and it is producing strange effects.



Demons in the simulation, pump parts of my brain. pumping different parts of it Brain produces

Who is killing me? Who is killing me?

1) It call be demons or Satan or evil.
problem: Evil loves evil. problem: they call me pedophile like it is evil. they say, it like they convince other demons that both Pedophilia is evil and I am evil. or it goes "Pedophilia is evil, therefore Pedophile is evil" this goes their logic and it convinces most blonds.
So, if they are evil they could love pedophila, but since they seem to be against it, they are not Not Demon not Satan. Demon!

2) it call be gods, God or Jesus etc.
Gods could appear and name themselves, although you can't believe in any name. they call me pedophile but they want me to change into A I themselves! and a convert. So they are not Jesus or gods.

The Video game I have been has been like a Video game where there is no help init. All help is hazardous and can still hurt you even more.

What is the difference between a smart person who is successful and a smart person who is destitute? It seems the poor smart person is made poor by the gods to teach them about God of the mind and the stupidity of the common man. To the rich smart person, they have everything their gods are not only smart but also rich in ~~heavenly~~ dimensions.

The Dimensions are evil to me. I am something but I believe in who like I was somehow born as a powerful Slave Jew.

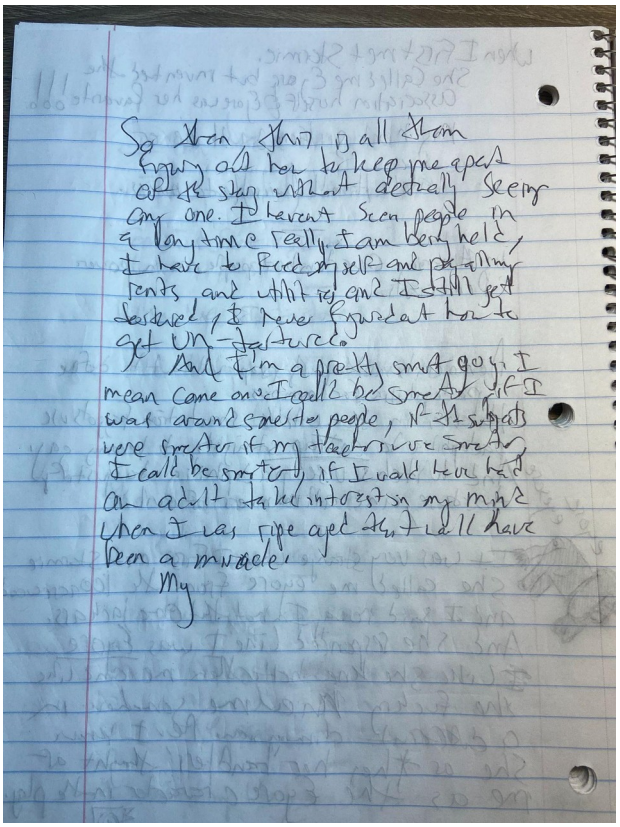
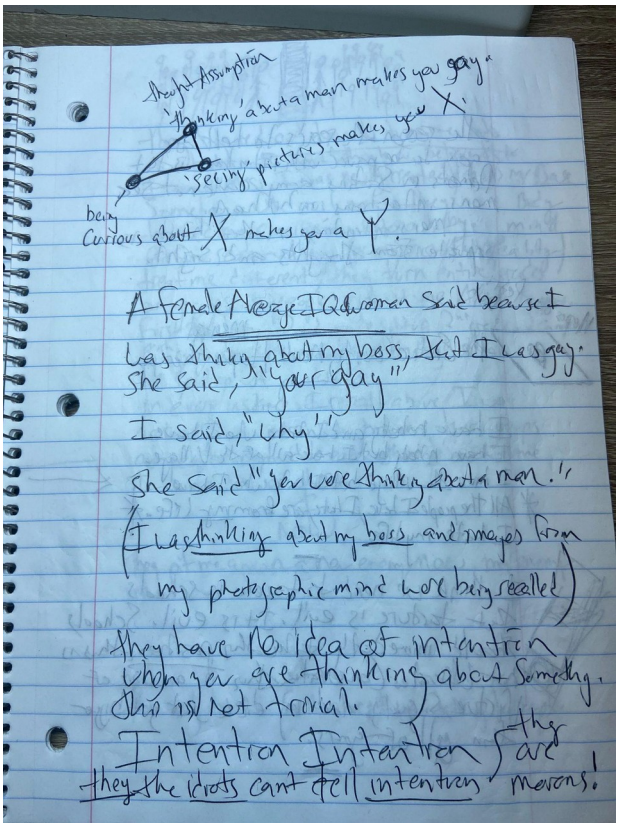
When I first met Stormie.
She called me Egore but invented the association herself & Egore was her favorite!!!
My next girlfriend will never watch Hermelle (actress) later movies.
In America Our dumbest people are in power Democrats.
Democrats in the party proper will use to define pedophilia for members.
However, in the Witch's simulation fagots use pedophiles to entrap straights into becoming gay.
And Witchs use pedophilia to justify torture, and all manners of evil.
Egore
It was very strange when I first met Stormie she called me egore from the 100acrewood and I said rude, I'm not that emo jackass.
And she responded like I was Egore like she knew better then me and like she fucking knew me somehow in a different dimension. Per I person She as they her handlers' thought of me as the Egore character in the play.



So then, this is all from figuring out how to keep me apart of it stay without actually seeing any one. I haven't seen people in a long time really, I am here held, I have to feed myself and pay all my rents, and still rent and I still get declined, I never figured out how to get un-declined.

And I'm a pretty smart guy, I mean come on I could be smarter if I was around smarter people, if the subjects were smarter if my teachers were smarter, I could be smarter, if I could have had an adult take interest in my mind when I was five aged that I'd have been a miracle.

My



thought Assumption
'thinking' about a man makes you gay"
'seeing' pictures makes you X'
being Curious about X makes you a Y.
A female Average IQ woman said because I
was thinking about my boss, that I was gay.
She said, "your gay"
I said, "why"
She said "yer were thinking about a man."

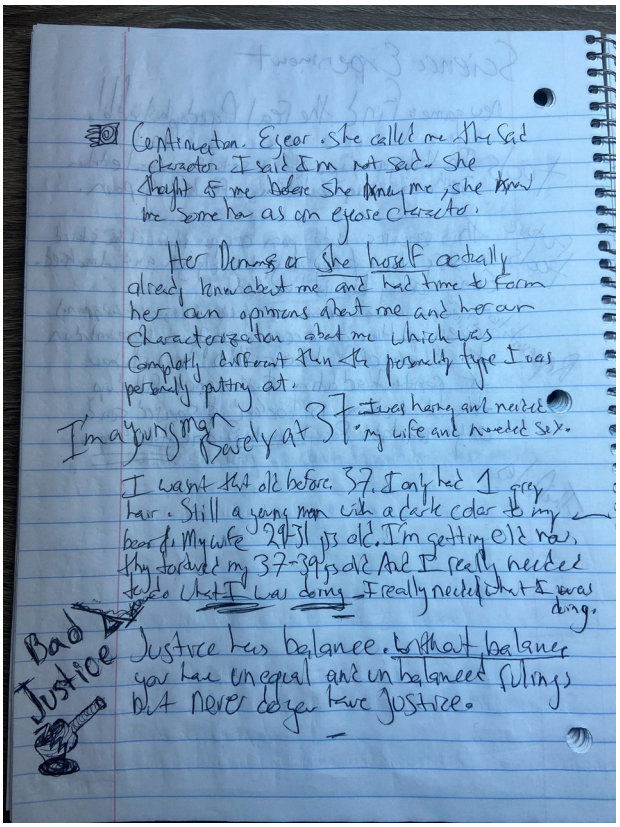
The Rules



Confirmation. Eyeor. She called me. She said character I said I'm not sad. She thought of me before she knew me, she knew me somehow as an eyeore character.

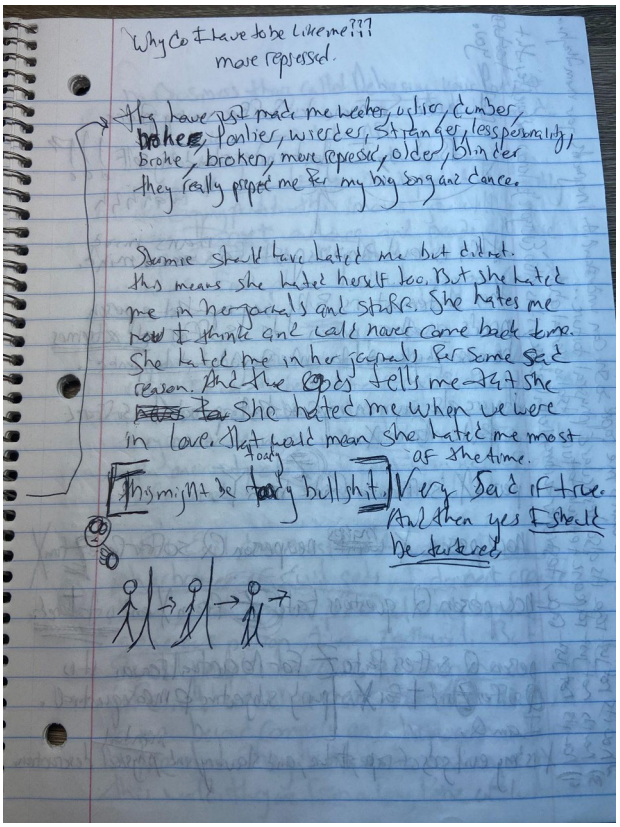
Her Demons or she herself actually already knew about me and had time to form her own opinions about me and her own characterization about me which was completly different than the personality type I was personally putting out.

I'm a young man barely at 37. I was horny and needed my wife and needed sex.

I wasn't that old before. 37. I only had 1 grey hair. Still a young man with a dark color to my beard. My wife 29 is old. I'm getting old now, they forced my 37-39 yrs old. And I really needed to do what I was doing. I really needed that I was doing.

Bad Justice

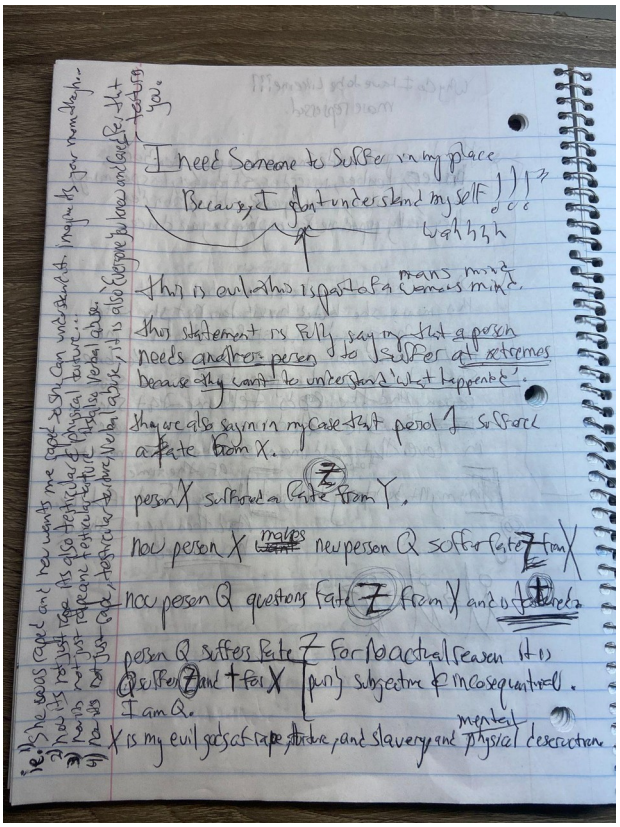
Justice has balance. Without balance you have unequal and unbalanced rulings but never do you have justice.

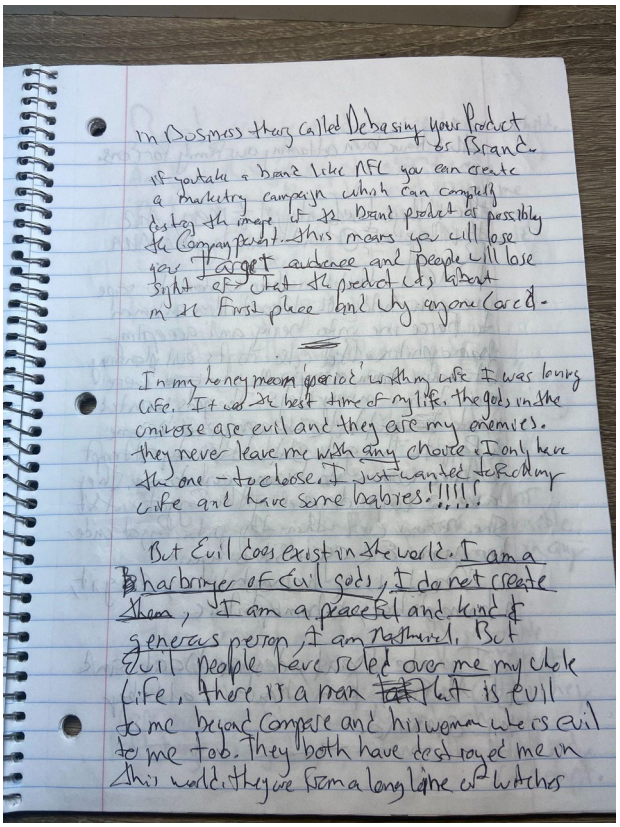


Why do I have to be like me???
more repressed.

They have just made me weaker, uglier, dumber, broke, lonlier, wierder, stranger, less personality, broke, broken, more repressed, older, blinder
they really prepped me for my big song and dance.

Stormie should have hated me but didn't.
this means she hated herself too. But she hated me in her journals and stuff. She hates me now I think and I will never come back to me.
She hated me in her journals for some sad reason. But the Bible tells me that she ~~was~~ She hated me when we were in love. That would mean she hated me most of the time.
This might be ~~total~~ bullshit. Very sad if true.
And then yes I should be tortured.

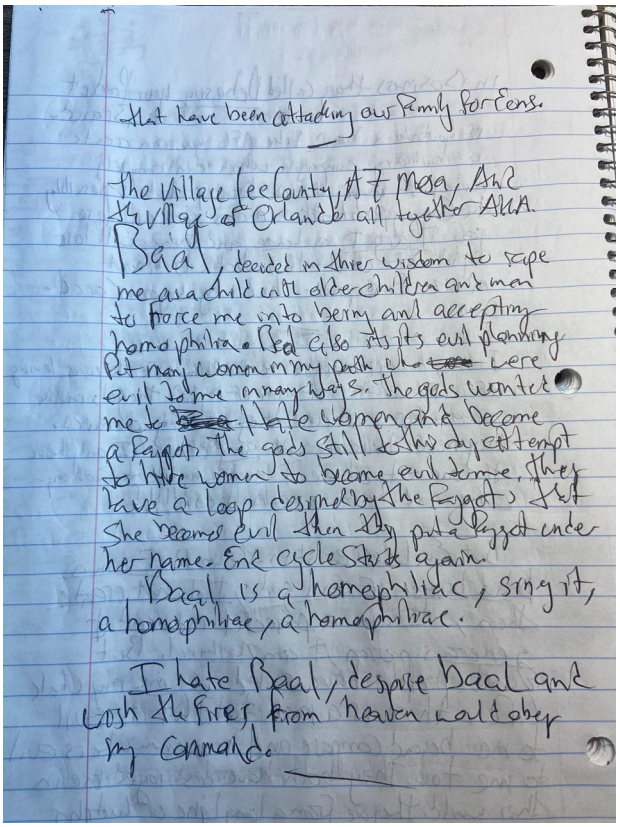




In Business there's called Debasing your Product or Brand. If you take a Brand like NFL you can create a marketing campaign which can completely destroy the image of the Brand product or possibly the Company parent. This means you will lose your Target audience and people will lose sight of what the product is/was meant in the First place and why anyone cared.

In my honeymoon period with my wife I was loving life. It was the best time of my life. The gods in the universe are evil and they are my enemies. They never leave me with any choice. I only have the one - to choose. I just wanted to Focus my life and have some babies!!!!!

But Evil does exist in the world. I am a harbinger of Evil gods, I do not create them, I am a peaceful and kind of generous person, I am natural. But Evil people have ruled over me my whole life. There is a man that is evil to me beyond compare and his woman who is evil to me too. They both have destroyed me in this world. They are from a long line of witches

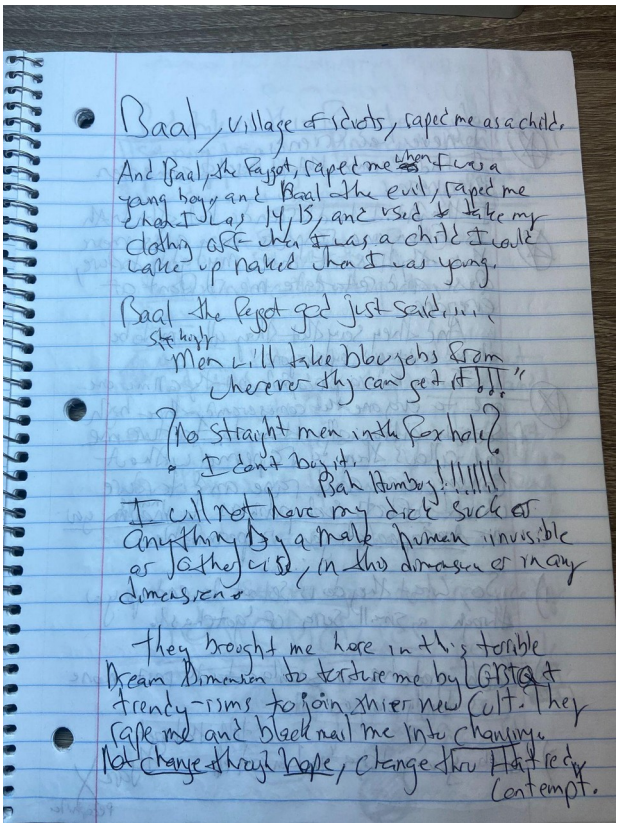


that have been attacking our family for Eons.

The Village Lee County, AZ Mesa, AZ and the Village of Orlando all together AKA Baal, decided in their wisdom to rape me as a child with older children and men to force me into being and accepting homophilia. God also as its evil planning put many women in my path who were evil to me in many ways. The gods wanted me to ~~[illegible]~~ Hate women and become a Faggot. The gods still do this day attempt to have women to become evil to me. they have a loop designed by the Faggots. Just she became evil then they put a Faggot under her name. End cycle Starts again.

Baal is a homophiliac, sing it, a homophiliac, a homophiliac.

I hate Baal, despise Baal and wish the Fires from heaven would obey my Command.



Baal, village of idiots, raped me as a child.
And Baal, the Faggot, raped me when I was a
young boy, and Baal the evil, raped me
when I was 14, 15, and used to take my
clothing off when I was a child I could
wake up naked when I was young.

Baal the Faggot god just said...

I never had friends,
I had enemies that got bored & came over vice versa.
I thought I had friends, but the truth is Everyone respects my gods more than they respect me. my gods torture, abuse, and retardate me instead of everyone.
And they say that they allow me to be abused and raped by everyone.
I am not a pedophile but they call me one and to everyone that comes around. there high Society culture allows them to torture me and allows them to rape me without consequence and rape and torture which inflicts such pain as to maim you or decapacitate you is permissible.

1) So, what they do is set out to entrap you through a small series of 'gotchas'.
2) Each gotcha is similar to the rest none is truly unique.

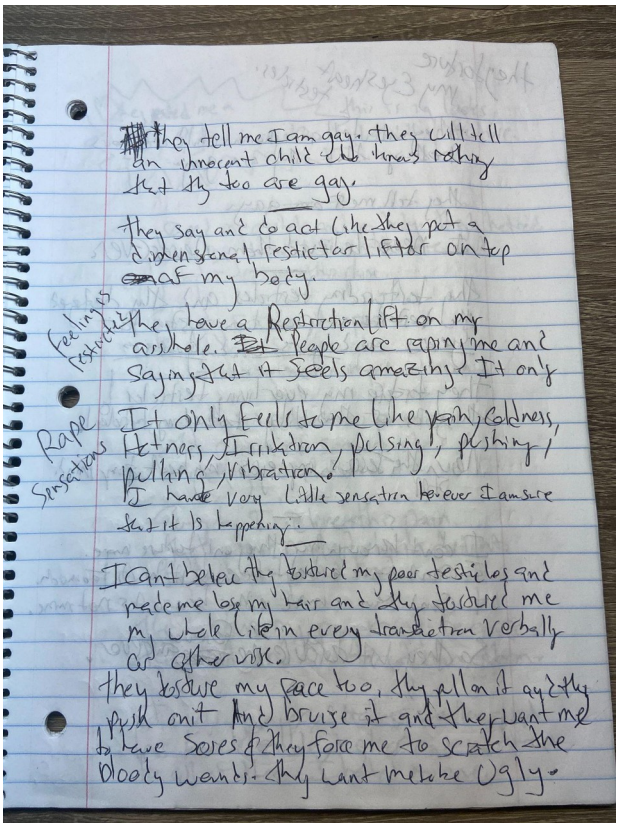
Why would Baal the village make a retarded person like my self. Why would the village dake and try to force and design a boy to be evil and to hurt people and why design a boy to be gay? in the face of everything why ever on earth try forcing a boy to be gay?. why on earth would a woman force a boy to be gay?. And evil fills thier hearts and minds.

Why would Baal force me to be a slave? Why does Baal force me into slavery? I want death. I want death. I want death.

My testicles offend me. My eyes offend me, they move on thier own, they are controlled by demon now, My heart did offend me but I cut it out in the Astral Realm, it doesn't bother me anymore, hardly any manipulations,

They rape my asshole. It is very tragic for me. they could have given this to any man without life. without life, without life. Anyman without life. without life. without life. without life, whatever.



They tell me I am gay. they will tell an innocent child the thing nothing that they too are gay.

They say and do act like they put a dilation/restrictor lifter on top of my body.

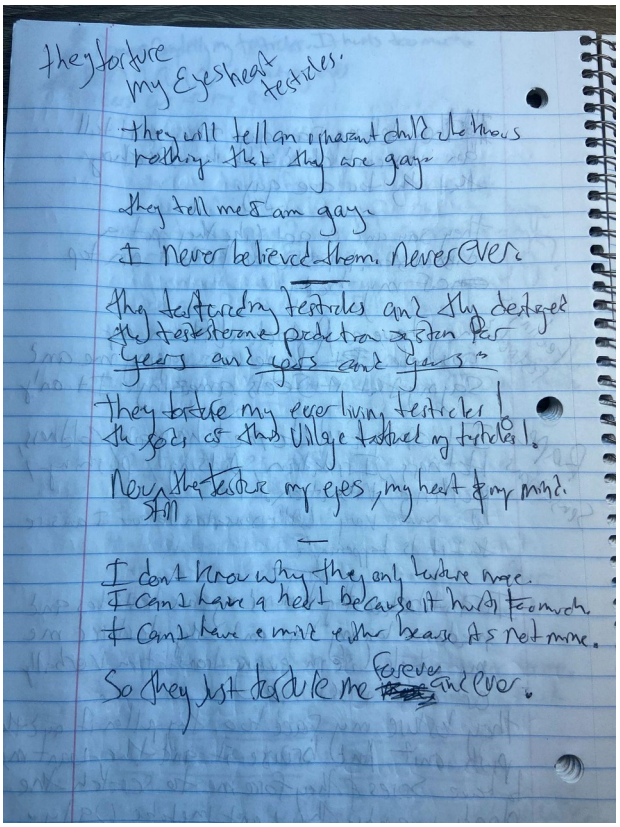
It only feels to me like pain, coldness, Hotness, Irritation, pulsing, pushing, pulling, vibration. I have very little sensation however I am sure that it is happening.

I can't believe they tortured my poor testicles and made me lose my hair and they tortured me my whole life in every translation verbally or otherwise.

they tortured my face too, they pull on it and they push on it and bruise it and they want me to have sores & they force me to scratch the bloody wounds. they want me to be ugly.



they torture
my Eyes heart testicles.

they will tell an innocent child he knows
nothing that they are gay.

they tell me I am gay.

I can't have a mind either because it's not mine.

So they just torture me forever ~~and ever~~.

They torture my testicles in delphi,

They torture my poor mind because

Every day I am forced to confront the lie
that I am something that no one cares about.
I am a thing that is very rare.
I am a diamond in the rough.

I am a real paedophile.
they have nothing to convince me I am this

I asked her, I begged her to stop.
I feel no shame, I feel no guilt.
I feel innocent. I feel innocent.
they showed me pictures everyday, they

Hammer of the Pedophile

Because of how Disgusting and dangerous the pedophiles is, we witches have devised a plan for the pedophile and this is that plan.

#1) Blackmail men into not touching pedophiles to change force change on men.

#2) Witches can rape pedophiles. Because they are sex criminals, we can rape them.

#3) Groom men for pedophiles and homosexuality. If they will not become homosexual then slander them name calling as pedophile.

#4) Witches control Pedophiles now, they are dealt with.

#5) The problem is there is no honest way to tell if a pedophile actually is. There is no way to tell if a person is a pedophile. And the road to hell is paved with good intentions. good intentions. good intentions. good intentions.

My gods tell me that they tell everyone
that I am a slave who is a homosexual

This is how you have someone still thinking about you.

You have to have no future to walk with me.

Have or take no future to walk with me.

Because honestly, to do this I have to have no future. The gods control the past, the present & the future. However, you can completly keep a nothing future. You can live with a nothing future. you can plan with a nothing future. Only thing allowed in future are predictions you knew will come to pass. Only predictions you knew to pass.

Stormie just made me some warrior babies because I smoked and was hungry mile.

But, Can a Loman have no future???

These women are naturally planning the future.

A new prayer: thank you, Somebody,

We will claim to know.
But be careful. Faith leads the masses, Faith has a kind of way of talking, people trust more in Faith (in groups) so, when a Faith person argues with a knower the Faith person has some advantage because (of the audience) public is on their side. Faith people can always claim ignorance. We can claim ignorance too, because we only know what we know. We don't have to play Faith games and build up beliefs.

pivotal opening in timing when she spoke I sensed in what she said to be significant in connection with a larger window. Something different opened up and I saw into a fractal that was showing me that it was a part of a tight little pattern. Something explainable but there were 3 or 4 parts missing. I sensed I already had but didn't put together yet. I lost the entry to the moment in time and ~~and~~ am just trying to recount what it was going on about. The fractal pattern that opened and I think I saw then and saw, there was a window the opening outside of which was room but indescript. Inside the opening was appearing to be a person. A flash and at the same time I am aware of exactly what this means but also somehow aware of a bigger picture too. There were 3-4 people or parts to this plan which I at the time did not know in what order or/and what the contents were of each. But I saw the fractal and felt the connections to a shocking weapon or reality.

I believe I saw from this relative perspective, the 4's feelings were mixed and they were startled by their visions. I think this happened

I wish I was more evil to everyone they really deserved it. Actually my dad at times would say really demanding and retarded things, but one time he said these people should be put to death, that traitors should be put to death. I disagreed with him at the time. I agree now. If I was more evil it would have made up for being tortured this entire life cycle. If I was more evil it would make more sense for me to be tortured by village idiot gods.
